

THE POWERFUL PRINTER FOR SMALL TEAMS.

When productivity and efficiency are crucial, the powerful FS-2020D is your first choice. With a print speed of 35 pages per minute it works at a remarkable pace providing double-sided printing, a 500-sheet paper cassette and exceptional user-friendliness. With USB and parallel interfaces as standard, the FS-2020D is a powerful personal printer, and the network-ready FS-2020DN upgrade is ideally suited for smaller workgroups.

- ▶ Up to 35 pages per minute in A4 with 1,200 dpi resolution
- ▶ Duplex unit as standard for double-sided printing
- ▶ 500 sheet universal cassette and 100-sheet multi-purpose tray
- ▶ 1,100 sheet maximum paper capacity, with optional paper feeder
- ▶ Powerful controller with 128 MB RAM as standard
- ▶ USB and parallel connectivity as standard
- ▶ Direct PDF Print from USB Flash memory device
- ▶ Exceptionally low printing costs in its class

Reduce costs, paper consumption and document bulk with double-sided printing.

Supports PDF direct printing via USB Host Interface for quick and easier print results.

FS-2020D/DN

MONOCHROME WORKGROUP PRINTER FOR A4 FORMATS

ECOSYS With their long-life components, ECOSYS devices are designed to maximise durability and minimise both direct costs such as consumables, and indirect costs such as maintenance and administration. The cartridge-free system requires that only the toner has to be replaced regularly. The modular design concept allows you to add productivity-enhancing options and a wide-variety of paper-handling capabilities as required. Integrated system software provides long-term cross-network compatibility. Kyocera's long-life components cost you and the environment less.

PRESCRIBE IIe

With the KYOCERA page design and control language PRESCRIBE IIe, even complex graphics, logos and forms (including multipart forms) can be created on any system and stored in the printer. They can be recalled from the printer's memory as needed, reducing network congestion.

The KM NetViewer

The KM NetViewer enables complete monitoring and control of all ECOSYS printers and KYOCERA multifunction copiers from any Windows[®] PC. It provides ideal network administration using the industry-standard SNMP protocol.

Status Monitor and Command Center

The Status Monitor visually portrays the printer's condition and gives direct access to the Command Center for the modification of advanced settings not available in the standard driver (e.g. IP settings, sleep mode or disabling the control panel).

USB Host interface for USB Flash Memory

PDF files can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. Documents are selected directly using the printer's control panel. No computer is required.
