Plantage: Electronic Copyboard for ordinary paper

PLNN:TAGGE

COLOR STANDARDS **SCREEN FUNCTIONS**

Color printing capable. Expanding the world of communication boards

Plantage: Electronic Copyboard for plain paper

Standard color print device for added convenience. A variety of product line-up to enhance productivity of meetings and presentations.

"Write", "Record" and "Project" - all three indispensable functions combined into one, with plain paper support.

Color print is a standard feature for added convenience.

Select from a wide variety of products: simple "Write" and "Record" only, screen fitted, wide type and more.

Four-Color Print: common to all models

Write on the board using black, blue, red and green markers and print as is. Color your graphs and figures. Highlight important areas for easy identification. Or print in monochrome as before.

Screen Functions

Has projection screen for clear and effective presentation.

Common to all models

Supports Plain Paper

Uses silent and fast inkjet printer. Ordinary thermal paper when stored. May be written over.

Number of Copies, Ink Concentration Setting

Copies up to 9 pages at one time. Two modes of copying - economy mode (standard) and high quality mode (dense). Even pale writing can be copied clearly. Can be used as minutes of meeting.

Silent/Lightweight design

Board running : 55db, Copy: 60db, very silent. Lightweight in design for easy transfer between meeting rooms.

Operation Panel Convenient operation. Copy, transmit what is written on the board and specify number of pages at the click of a button.

- Color Copy Key**: Copies one page of white sheet on the board in color.
- Monochrome Copy Key**: Copies one page of white sheet on the board in monochrome.
- Left & Right Feed Key**: Brings out projection screen and feeds on page white sheet.
- Dense Key**: Copies even pale writing clearly in high screen quality mode. Copies in economy mode normally.
- Screen Key**: Sets what screen to project whatever page is being used.
